Prairie Mountain Health and LM Architectural provided an update on the construction of the new Neepawa Health Centre (hospital) on Oct. 24.

Pictured: A recent photo showing the progress made in this massive project's construction. This photo was shared on the evening of the presentation. There is much yet to be done, but things are taking shape. Some features that stand out at a glance are the large windows for the atrium (seen toward the centre, facing the camera) and the round cement pad at the back right of the photo. That cement pad will serve as a landing pad for helicopters.

Looking Back
